

**INTERSPORT Polska S.A. SUPERVISORY BOARD'S ASSESSMENT  
of the rationality of the Company's policy  
concerning sponsorship, charity and similar activities**

INTERSPORT Polska S.A. occasionally engages in sponsorship and charity activities related to Corporate Social Responsibility. Pursuant to the amended Accounting Act in force since November 2016, the Company is not presently obliged to disclose non-financial information on this type of activities.

The Company has been involved in local sports events and encourages its employees to engage in charity campaigns, such as "Szlachetna Paczka" ["Noble Gift"] or "Zakręcona Akcja" ["Screwtop Campaign"], described in 2016 Management Board's Report on Company's Operations. The Company has promoted sports practising among its employees participating in "Aktywna Kadra" ("Active Staff") programme and has cooperated with youth sports club "INTERCLUB". To popularise sports, ski multitests for our regular clients are organised in spring and autumn season.

In the Supervisory Board's view, the Company's involvement in sponsorship and charity activities is reasonable and in line with the current financial capabilities of the Company.
